J. 12

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY  
WATER POLLUTION CONTROL PERMIT

PERMIT NUMBER: 1975-EA-1316-OP-2

DATE ISSUED: February 25, 1976  
PROJECT LOG NUMBERS: 1411-75

SUBJECT: CABOT CORPORATION - INDUSTRIAL WASTE DISPOSAL WELL #1 & #2  
(Douglas Co.) Tuscola, Il.

Cabot Corporation  
P.O. Box 188  
Tuscola, Illinois

EPA Region 5 Records Ctr.

298907

Supplemental permit is hereby granted to the above designated permittee to construct and/or operate water pollution control facilities, which were previously approved under Permit #1975-EA-1316-OP-1 dated December 17, 1975. These facilities have been revised as follows:

To include the operation of well #2 which was constructed under Permit #1975-EA-497.

This supplemental permit is issued in accordance with revised plans and/or specifications prepared by Michael G. Fowler and are identified in the records of the Illinois Environmental Protection Agency, Division of Water Pollution Control, Permit Section, by the log numbers designated in the subject heading above.

The Standard Conditions of issuance of this supplemental permit are itemized below. All other conditions and provisions of the original permit issued are also applicable to this permit unless specifically deleted or revised in this permit.

READ ALL CONDITIONS CAREFULLY.  
STANDARD CONDITIONS

1. If any statement or representation is found to be incorrect, this permit may be revoked and the permittee thereupon waives all rights thereunder.

2. During or after the construction or the installation of the facilities covered by this permit any agent duly authorized by the Illinois Environmental Protection Agency shall have the right to inspect such facilities and its operation.

3. The issuance of this permit (a) shall not be considered as in any manner affecting the title of the premises upon which the permitted facilities are to be located; (b) does not release the permittee from any liability for damage to person or property caused by or resulting from the installation, maintenance or operation of the proposed facilities; (c) does not take into consideration the structural stability of any units or parts of the project; and (d) does not release the permittee from compliance with other applicable statutes of the State of Illinois, or with applicable local laws, regulations or ordinances.

4. Treatment works will be operated or supervised by a duly qualified treatment works operator certified under the Regulations of the Illinois Environmental Protection Agency.

5. The facilities covered by this permit shall be constructed and operated in compliance with the provision of the Illinois Environmental Protection Act and Chapter 3 of the Rules and Regulations as adopted by the Illinois Pollution Control Board.

This permit is issued in accordance with the Illinois Environmental Protection Act of 1970 and the Chapter III Water Pollution Regulations adopted pursuant thereto by the Illinois Pollution Control Board.

6. Plans, specifications and other documentation submitted shall constitute a part of the application and when approved shall constitute part of this permit.

7. This Permit may not be assigned or transferred without a new permit from the Illinois Environmental Protection Agency.

8. There shall be no deviations from the approved plans and specifications unless revised plans, specifications and application shall first have been submitted to the Illinois Environmental Protection Agency and a supplemental permit issued.

9. The installation shall be made under the supervision of an inspector, who is familiar with the approved plans and specifications provided by and approved by the owner, and said inspector shall require that construction comply with the plans and specifications approved by this Agency.

10. Unless otherwise stated by Special Condition, construction must be completed in three years for treatment works and two years for sewers and wastewater sources.

11. Discharges into the sanitary sewer(s) constructed under this permit shall consist of wastewater only. Storm waters shall not be permitted to enter the sanitary sewer(s). Roof and footing drains shall not be connected to the sanitary sewer(s) constructed under this permit.

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY  
WATER POLLUTION CONTROL PERMIT

SUPPLEMENTAL  
PERMIT NUMBER: 1975-EB-1316-OP-1

DATE ISSUED: December 17, 1975  
PROJECT LOG NUMBERS: 1340-75 (769-75)

SUBJECT: CABOT CORPORATION - Industrial Waste Disposal Well #1 (Douglas Co.)  
Tuscola, Illinois

Cabot Corporation  
Post Office Box 188  
Tuscola, Illinois 61953

Supplemental Permit is hereby granted to the above designated permittee to construct and/or operate water pollution control facilities, which were previously approved under Permit #1975-EB-1316-OP dated October 8, 1975. These facilities have been revised as follows:

The capacity of the two surface holding ponds has been increased from 1,450,000 gallons to 2,550,000 gallons.

Item #10 on page three of the permit shall be revised as follows: 10. Once per quarter a representative set of well operation charts shall be submitted along with the monthly report.

The proposal for the inspection program as proposed in the November 4, 1975 letter from Michael G. Fowler is hereby accepted as meeting the intent of Special Condition #1 of permit.

This supplemental permit is issued in accordance with revised plans and/or specifications prepared by Michael G. Fowler and are identified in the records of the Illinois Environmental Protection Agency, Division of Water Pollution Control, Permit #1975-EB-1316-OP-1.

READ ALL CONDITIONS CAREFULLY.  
STANDARD CONDITIONS

1. If any statement or representation is found to be incorrect, this permit may be revoked and the permittee thereupon waives all rights thereunder.

2. During or after the construction or the installation of the facilities covered by this permit any agent duly authorized by the Illinois Environmental Protection Agency shall have the right to inspect such facilities and its operation.

3. The issuance of this permit (a) shall not be considered as in any manner affecting the title of the premises upon which the permitted facilities are to be located; (b) does not release the permittee from any liability for damage to person or property caused by or resulting from the installation, maintenance or operation of the proposed facilities; (c) does not take into consideration the structural stability of any units or parts of the project; and (d) does not release the permittee from compliance with other applicable statutes of the State of Illinois or with applicable local laws, regulations or ordinances.

4. Treatment works will be operated or supervised by a duly qualified treatment works operator certified under the Regulations of the Illinois Environmental Protection Agency.

5. The facilities covered by this permit shall be constructed and operated in compliance with the provision of the Illinois Environmental Protection Act and Chapter 3 of the Rules and Regulations as adopted by the Illinois Pollution Control Board.

This permit is issued in accordance with the Illinois Environmental Protection Act of 1970 and the Chapter III Water Pollution Regulations adopted pursuant thereto by the Illinois Pollution Control Board.

6. Plans, specifications and other documentation submitted shall constitute a part of the application and when approved shall constitute part of this permit.

7. This Permit may not be assigned or transferred without a new permit from the Illinois Environmental Protection Agency.

8. There shall be no deviations from the approved plans and specifications unless revised plans, specifications and application shall first have been submitted to the Illinois Environmental Protection Agency and a supplemental permit issued.

9. The installation shall be made under the supervision of an inspector, who is familiar with the approved plans and specifications provided by and approved by the owner, and said inspector shall require that construction comply with the plans and specifications approved by this Agency.

10. Unless otherwise stated by Special Condition, construction must be completed in three years for treatment works and two years for sewers and wastewater sources.

11. Discharges into the sanitary sewer(s) constructed under this permit shall consist of wastewater only. Storm waters shall not be permitted to enter the sanitary sewer(s). Roof and footing drains shall not be connected to the sanitary sewer(s) constructed under this permit.
